

Consultation

Price: \$390 | Duration: 2hrs+ onsite

Inclusions:

- Client Information – owner and property details
- Owner Requests – discussion around lifestyle, life stage of family/ individual(s), desirable garden inclusions
- Function – discussion around how your outdoor space will work
- Aesthetic/Style – discussion around how your outdoor space will look and feel
- Services/Easements – consideration of hidden construction implications
- Zones – breakdown of exterior space into defined areas
- Miscellaneous Inclusions – eg. discussion around irrigation and lighting
- Budget – anticipated project cost range (approximate 'Ballpark Estimate')
- Brief – written design brief for further discussion, and as the basis for design package preparation

Please note:

Drawings/sketches are **not** included in a consultation (and design brief preparation); this is a detailed discussion around your project and subsequent written documentation of your brief, leading toward preparation of a design.

Design Package

Starting from: \$7000 | Duration: 12-16 week upon concept commencement

Inclusions:

- Basic survey – house footprint and existing landscape features with spot levels and contours where required (or check suitability of survey if supplied by owner)
- Concept sketch – A3 pencil concept drawing (site or partial site plan) prepared to scale from consultation brief. May also include elevation (singular) and detail drawings as required
- 2D CAD site plan – with descriptive notations
- 2D planting plan & schedule
- 3D renders – several project angles
- 3D lighting effects – several project angles
- 3D video fly-through
- Construction Proposal (if required)

Options:

- Professional cadastral survey to identify and peg out boundaries
- Professional service location and documentation
- Drainage plan
- Electrical plan
- Lighting plan & schedule
- Irrigation plan
- Schematic plans for DA approval

Please note:

- Package inclusions will be tailored to individual projects and outlined in a fixed price fee proposal.
- Most projects will require a professional survey or partial survey to be completed, prior to commencement of design work.
- Some projects will require professional service location and documentation, prior to commencement of design work.
- The average price range for a full design concept package is \$7-\$12K (inclusive of partial survey, and utility service location where applicable). Design packages are tailored to each site/client based on inclusions, time required to complete and relationship to project scale.
